

# Beautiful World

by Rory and Panny Nichols

How green the trees are, so green they grow to the sky  
The leaves and birds that live there  
are just learning to fly.

There's so much life around here,  
it makes you feel so good  
Now I know why God made such a beautiful world.

There's water all around us  
Let's swim with the fish in the pond  
The pier goes down to the bottom  
The bridge goes swinging beyond  
There's so much life around here  
It makes you feel so good  
Now I know why God made such a beautiful world.

We can cross the bridge together  
When the bell starts to ring  
Find shelter from the weather  
Until the birds can sing  
Canoes are by the water  
Let's take one out and have fun  
Watch out for mosquitoes  
And wear your hat in the sun

There's so much life around here,  
it makes you feel so good  
Now I know why God made such a beautiful world.  
Now I know why God made such a beautiful world.
